When Turkey agreed to normalize relations with Russia and Israel

The France 24 was broadcasting the news of apology by Turkey and compensation for the Russian pilot, at the same time it issued normalization with Israel, but no information of pardon by Israel and compensation of 20 million dollars to the Turkish victims killed by Israeli soldiers.

When United States occupied (released, for French media) Iraq in 2003, Barzani's Kurdish peshmergas have Kirkuk attacked and they burned the Register Office of the city in order to remove the documents that showed the true inhabitants of Kirkuk. Then they transferred one million Kurds from other regions in Kirkuk for one year. The other side to terrorize and push to leave the city, they attacked the Turkmens and Arabs.

After the election of deputies in 2005, Barzani paid \$ 50,000 to each deputy who voted the law of emptying Kirkuk's Arabs. For a year they made false documents of residence for the transferred Kurds, and at the 2005 Kurdish asked a referendum for the city Kirkuk. In 2015 they occupied the whole of Kirkuk with its oil fields.

These crimes continue in Syria as, the bombing of cities and villages of Turkmens and Arabs by the French and American, occupation by Kurds, the destruction of the Register Office and the houses of the Arabs and Turkmens, and Kurdish transfer to these places.

The French media shows a part of Azerbaijan (in Iran) as the land of Kurds. This is false, these cities and villages (Khoy, Maku, Salmas, Urmia and Neqedeh) in border with Turkey, were still populated by Azerbaijanis and 10% Kurds who live there, are Iraqi Kurdish refugees from Saddam's time that are installed by the Iranian regime to change the demography of the region.

In these cities, no Kurdish mayor as always.

(As Moroccans settled in Corsica for 50 years by the French).

When French media talk about numbers of refugees in the world, no place for one million Azerbaijani refugees, aggression victim of the terrorist Armenian government, supported by Russia, Iran and France.

In summer 1995, Yann RICHARD Director of Institute for the Iranian's Study (Sorbonne Nouvelle University - Paris 5), in an interview with RTL says

((Christians have committed crimes in Iran that are not pardonable))

This is massacring a few hundred thousand Azerbaijani Muslims in 1917, in cities and villages of (Khoy, Maku, Salmas and Urmia) by Armenians and Assyrians, with help of various churches and consulates French, English, German, American and Russian who provided money and weapons to the Christians.

On May 28, 2016 the leaders of Armenia unveiled the statue of an Armenian hero Garegin Nzhdeh in the center of the capital of Armenia. This hero was the leader of the Nazis Armenian troops (30,000 men) in World War II and the murderer of thousands Poles, Ukrainians, Caucasians and French.

Any news share and protest by parties supposedly anti-fascist about it in the French media. The French must not know information about the crimes committed by the Kurds and Armenians.

When the French TV broadcast documentaries about the USSR, they remove the image of Anastasias MIKOYAN Armenian, Lenin, Stalin, and Khrushchev's collaborator, and one of four Soviet officials who sign the execution order of 26,000 Polish officers in World War 2. (The Katyn massacre).

In June 2016, the French weekly (Le UN) published an interview with a Jordanian General who explains:

When the forces of the Islamic State advancing towards the historic center of Palmira, the Jordanian armed forces asked from Americans a permission for destroy the forces column of IE, but the Americans refused.

The purpose was to legalize the PKK, claiming that only Kurds can beat EI.

While media large-prints and part of the French politicians cry for the death and arrest of members of the PKK in Turkey, they give no picture of weapons and explosives (made in France, Germany, England, Russia and in America) seized by the Turkish army from the PKK.

These medias and French politicians pretend Kurdish leaders Iraqi and Syrian as democrats, and hide the true faces of these criminals.

The French monthly **SineMensuel** the July-August 2016 reveals some of this crime.

The title is: **Our Friends Iraqi Kurds.**

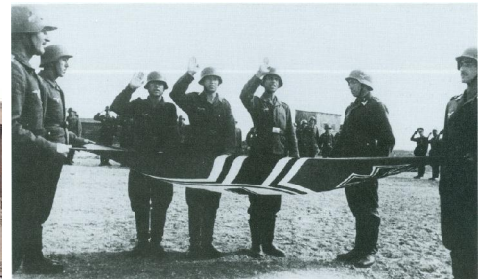

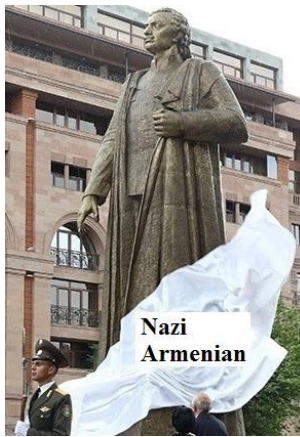

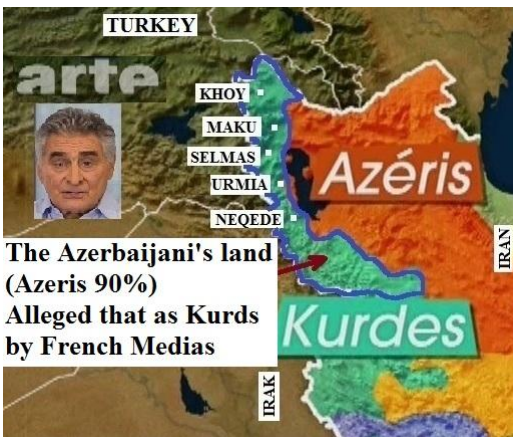

(The peshmerga, the Kurdish fighters, pay a heavy price in the fight against EI. Our ((friend)) BHL drew a movie to their glory, introduced with much fanfare at Cane Festival.

Yes, but ... the Iraqi Kurdistan living under authoritarian and clan where all opposition is severely repressed.

That, Neither BHL Nor Western dare say ... And nevertheless!)

If these Medias and some anti-Turkish and anti-Azerbaijani politicians support Kurdish and Armenian terrorist troop and government, it does not mean defending the interests of the Kurdish and Armenian peoples. The reason is destabilize Turkey and Azerbaijan and prevent the development of these countries.

Look at the situation in Armenia, hundreds of villages are empty. On three millions Armenians, one million people have immigrated to Russia, 500,000 to Europe and America and 100,000 have left Armenia for work in Turkey.
