### Turkmen, Kurds and French media

When the Iraqi army liberated Kirkuk and other towns and villages from the occupation of the Kurds (17/10/2017), the Western media, mostly French, broadcast the news from the Kurdish side, not from the army or Turkmen (the victims of the aggression and torture of Saddam before 2003 and the Kurds after 2003 with thousands dead).

Euronews during a day spread the image of a fugitive peshmerga who shouted the Iraqi people's forces (mostly Turkmen) are the Iranian forces and they speak Persian. The French media did not want to testify the crimes committed by his Kurdish friends in Iraq and Syria. The role of the media in France, to deceive the peoples on certain subjects like the Turks, the Arabs, the Muslims and even the Christians.

The monthly magazine l'Incorrect of November 2017 testifies:

**The Chaldean Assyro and the Yazidis have not forgotten the cowardice of the Kurds of the PDK (Barzani's party) in the face of the jihadists drill. On the day of the referendum on independence, the Assyrian European Confederation (ACE) published a damning report of a hundred pages on the situation of Assyrian Christians in Iraq denouncing the numerous violations by the Kurdish Regional Government. On their side, the Yazidis, who were not co-opted by the Barzani clan, denounce blatantly the highly effective corruption and patronage practiced by the Erbil power.**

The French media do not want to publish these documents, even the newspaper La Croix which claims to be the voice of the Christians of France, but it publishes false documents written by the Kurds.

The United States, the EU and Israel wanted to create an independent Kurdistan in the heart of the Middle East at their service to destabilize the region. They were sure and that's why in his media they spoke about Kurdistan, not Iraqi Kurdistan.

In 2003 the Americans attacked Iraq by killing one million civilians with more than 6 million refugees. With the help of the Americans, the Peshmerga of Barzani and Talabani attacked **the Military Bases, the Banks, the Civil Registry Office of Kirkuk** (they set fire to this office in order to make disappear the documents which testified the real inhabitants of Kirkuk.) **and Deposits of Building Materials** and they transferred **all weapons, money and materials** to **Erbil** and **Suleymaniyeh**, in the same way that the Americans had planned.

At the same time they took in hand Kirkuk and its surroundings, installing a Kurdish governor (Nadjm oddin omar karim - at the moment he lives in USA with a few million Dollars the stolen money).

To be the owner of the Kirkuk oil fields, it was necessary to change the demography of the region. For this purpose, for one year, Barzani transferred one million Kurds from other regions to Kirkuk by building Kurdish districts and giving them all the necessary services such as water, electricity, and ....., in suppressing these services for the majority of Turkmen.

The Kurdish governor has installed hundreds of Kurds in the city administration, such as the police, the town hall, health, education (they murdered former head of education of the city

(Ibrahim Ismail) for refusal of 40 posts for Kurds of Erbil, and they transferred 476 Kurdish students from Erbil and Suleymaniyeh to Kirkuk University), and ...  
They created a torture center in the name of (Asayes - the Tranquility), consisting of 15 buildings in a district in Kirkuk with weapons and explosives, police clothes, different cars and plates of registration to kidnap, torture and kill Turkmen and Arabs.  
From 2003 to 2017, 3000 Turkmen were kidnapped and never find, hundreds of Turkmen houses were attacked by explosives, and dozens of Turkmen were murdered in their cars.  
These Kurdish criminals entered the homes of Turkmen and Arabs and stole their money and the valuables. On October 17, 2017 before fleeing to Erbil, some peshmergas attacked some travel agencies and stole money, computers and passports of customers.

In 2005, the Americans are preparing a constitution that gives half of Iraq and power to the Kurds. In Iraq, there are 3 million Kurds and 3 million Turkmen, and the Americans delete this last. By eliminating the Turkish language, the official languages become Arabic and Kurdish.

**On November 23, 2017, Shirin REZA, the Kurdish deputy of Iraqi's parliament, says that for 26 years, from 1991 to 2017, the families of Barzani and Talabani stole a few billion dollars of oil money.** (Of course transferred to European and American banks).

**On December 17, 2017, Shirin REZA says that since 2003 on the lists of Kurdish voters, there were 650,000 false names.**

**On December 26, 2017, Nuri OSMAN, the financial officer of the parliament of Iraqi's Kurdistan says that on the list of employees, there are 68,000 peoples who each earn 2 to 4 salaries.**

After the election of the deputies and faked referendum of constitution of 2005 in an occupied country (a free election, for the French media), Barzani paid \$ 50,000 to each deputy and minister who voted the law to empty Kirkuk of the Arabs. For one year they made false documents of the residence for the transferred Kurds. In 2005 the Kurds demanded a referendum for the city Kirkuk and its surroundings to attach to Iraqi's Kurdistan. In 2015, they occupied all of Kirkuk with its oil fields.

On December 02, 2017, hundreds of American soldiers settled in the suburbs of Kirkuk. Since the numbers of attacks to Turkmen with rockets have been increased. The houses, the shops, the Turkmeneli party offices, cars and families are targets, especially the terror of the Turkmeneli Party leaders. The election of parliamentarians from Iraq is approaching (On Mai 12, 2018), Westerners are concerned about the defeat of their Kurdish mercenaries in Iraq and Syria.

The Americans claim that they spent 4 trillion dollars for the Iraq war. There are 40 million Iraqis, that is to say every Iraqi received 100,000 dollars of the service. If so, Iraqis were praying for years to BUSH. The only service received by the Iraqis was the destruction of their homes and the death of civilians by the Americans and his terrorists.

On the contrary, it is American death manufacturers that have earned this sum, such as the Militaro-Industrial Complex, Blackwater, Halliburton, Lockheed Martin, KBR, Douglas Boeing, Parsons, DynCorp, Transatlantic Traders, and... Whose all of US executives were and are shareholders. The money did not leave the United States, it came out of the state fund, went into the coffers of these companies, and the pocket of the country leaders.

The French media shows a part of Azerbaijan (in Iran) as the land of Kurds. This is false, these cities and villages (Khoy, Maku, Salmas, Urmia and Neqedeh) in border with Turkey, were still populated by 90% Azerbaijanis and 10% Kurds who live there, are Iraqi Kurdish refugees from Saddam's time that are installed by the Iranian regime to change the demography of the region. In these cities, no Kurdish mayor as always.

Province 90% Azerbaijani (in Iran) pretended as kurdish lands by the French media

The land of Turkmens and Christian (in Iraq) pretended as kurdish lands by the French media

These anti-Turkish and anti-Arab media publish fake maps of the Middle East claiming these lands as that of the Kurds: Look at these two pictures of a part of the map of Syria.

Published by the Library of Congress in Washington - 2007

Published by France 24 October 2014

The first was published by the Library of Congress in Washington in 2007. The northern city of Syria bordering Turkey is called (Eyn Al Arab), not (Kobane). The second image is published in the French media with the false name of (Kobane), and not (Eyn Al Arab).

The French secret services using Lafarge's French cement plant in Syria, the collaboration of German civil engineers, money, means of transport, and American construction machinery, have built the Maginot Line with reinforced concrete towers, with one-meter-thick walls and roof that can withstand normal bombs (but not the Turkish Armed Forces), on mountains around the province of Afrin in Syria, occupied since 2012 by Kurdish PKK terrorists. If the French media do not give any image and information about it, always to deceive the people.

The United States' desire for democracy in the world is all ridiculous as the name of (The Syrian Democratic Forces) for Kurdish PKK terrorists.

After the Second World War, the Americans made more than 60 coups d'Etat with more than 20 million dead, only one million in Indonesia and as much in Iraq, and tens of millions of refugees, to steal their wealth.

Look at this Amnesty International report on PKK terrorists as YPG, PYD, and.... On October 13, 2015:

**"By deliberately destroying the housing of civilians, in some cases by shaving and burning entire villages, displacing their inhabitants without any military justification, the autonomous administration is abusing its authority and shamelessly flouting international humanitarian law, as part of attacks constituting war crimes" said Lama Fakih, Amnesty International's crisis advisor.**

**Some civilians claimed that they had been told that they would be targeted by air strikes launched by the United States and its allies if they refused to leave.**

**The satellite images obtained by Amnesty International illustrate the scale of the demolitions in the village of Husseiniva, near Tel Hamees. These images show 225 buildings in June 2014 and only 14 in June 2015 - a shocking reduction of 93.8%.**

**"They pulled us from home and started burning the house [...] they brought bulldozers [...] they demolished house after house until the whole village was destroyed," said a witness.**

**"They started pouring oil at my in-laws. My mother-in-law was there, refusing to leave, and they poured oil around her [...] they found my father-in-law and started to beat him on the hands [...] I said, "Even if you burn my house, I'll find a tent and I'll settle in. It's my home here, I'll stay at home," Bassma said.**

**Although the majority of residents affected by these illegal practices are Arabs and Turkmen, in some cases, for example, in the mixed population of Suluk, YPG and Asayish - the police force of the autonomous administration - also banned Kurdish residents from returning home. Elsewhere, for example, in the village of Abdi Koy, a small number of Kurdish residents have also been forcibly displaced by the YPG.**

Forcing children as soldiers to threaten to kill their parents is a war crime (for the French media, it's not important). They are cheaper mercenaries).

Alain BAUER (The professor of criminology at the CNAM, the universities of New York and Beijing) explains: There was then the return of the Algerian mercenaries from Afghanistan that we paid, trained, supported, and helped against the armies of the Soviet Union. (Éléments Magazine, February March 2018).

Like Al-Qaeda, the Islamic State was created by Americans, Israelis and Europeans to destroy the Middle East and build a great Israel on the land of Palestine, Lebanon, Syria and Jordan. And second Israel under the name of (Kurdistan).

In July 2016, the French weekly (Le UN) published an interview with a Jordanian General who explains:

in May 2015, When the forces of the Islamic State advancing towards the historic center of Palmyra, the Jordanian armed forces asked from Americans a permission for destroy the forces column of IS, but the Americans refused. The purpose was to legalize Kurdish PKK terrorists, giving them weapons, supposedly to beat against IS.

On November 14, 2017, a few thousand IS terrorists in Raqqa have been released and recruited by the Americans for use in Syria, Iraq and Afghanistan. The airspace of Afghanistan, Iraq and half of Syria are under American control.

On November 17, 2017 in a press conference, Hamid KARZAI the former president of Afghanistan states says that:

((Afghan villagers are asking the question, who are these foreign catfish that come with helicopters to the villages of northern Afghanistan and want to recruit young people as mercenaries with a salary of \$ 500 a month.

The IS with the help of Americans has entered Afghanistan. The Americans must explain to us, with their secret services and control of American air space in Afghanistan, how these foreign terrorists arrived in Afghanistan)).
